

My Breast Decisions: Mastectomy & Reconstruction

Considering breast reconstruction?
Please join us for an informative discussion.

Many women aren't aware of the options available for breast reconstruction. Our plastic surgeons are at the forefront of innovation in breast reconstruction, performing 3D microsurgery, robotic mastectomy and reconstruction, lymphatic reconstruction—as well as pioneering work to enhance recovery after breast reconstruction.

You will have the opportunity to:

- Hear from an expert panel of plastic surgeons specializing in advanced breast reconstruction techniques
- Learn what considerations are important in making choices about breast reconstruction
- Tour Katz Women's Hospital, where women are admitted after surgery
- Learn key points that patients should know prior to surgery
 - Obtaining a badge at concierge
 - Directions to surgical admitting

The panel session will be followed by Q&A.
